featured projects:

Listapeli: A full-stack MEAN application allowing users to save data about their favorite movies. Designed both the client-side (Angular) and the server-side (REST API and database). (link)

Meet-app: A serverless, progressive web application (PWA) built with React using a test-driven development (TDD) technique. The application uses the Google Calendar API to fetch upcoming events. (link)

Chata-pp: A chat application for mobile devices built using React Native. The app provides users with a chat interface and options to share images and their location. (link)

Gotta search'em all: A small web application built with HTML, CSS, and JavaScript that loads data from an external API and enables the viewing of data points in detail. (link)

statement:

As a full-stack web developer I would like to be a mediator between the user experience and the functional logic. In addition to my leveled-up web-dev skills, I can offer 4 years of professional experience as an architect / urban planner. From my architectural background, I can bring the ability to combine functionality with aesthetics as well as systematic thinking and problem-solving skills.

work experience:

2020 – 2021 Laboratory for Visionary Architecture, Berlin, DE (architect)
2019 – 2020 IPR Praha (Planning Institute of Prague), Prague, CZE (urban planner)
2017 – 2020 Needlab, Barcelona, ESP (researcher / architect)
2017 – 2018 Paulíny Hovorka Architekti, B. Bystrica, SVK (architect)

education:

2021 – 2022 Career Foundry (full-stack web-dev bootcamp), Berlin, DE
2015 – 2017 IaaC Barcelona, ESP - Master degree
2014 – 2014 CEPT University, Ahmedabad, IND, (exchange program)
2010 – 2015 Academy of Fine Arts and Design, Bratislava, SVK - Bachelor degree

language skills:

Slovak: native
Czech: native
English: fluent (CAE, IELTS)
German: fluent
Spanish: fluent
